Our Value Proposal

For Architects / Designers

- *High end design*
- *Various finishes & decors*
- *Solution provider*

For Owners / Tenants

- *Low maintenance*
- *Durability*
- *Quality*

For Users / Customers

- *High privacy*
- *Safety*
- *Comfort*

Features

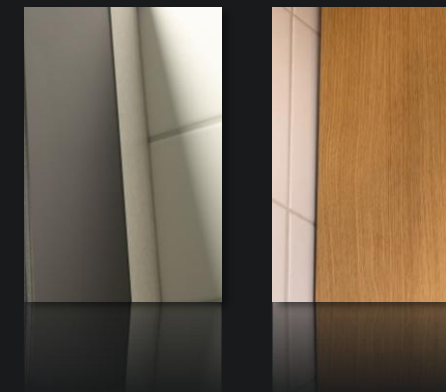

Fixation to walls

U-profile / Shadow gap profile

Locking system

Door integrated mortice lock

Hinges

Heavy-duty spring-loaded hinges in aluminum or stainless steel

NiUU one F

Material

- Particle board core
- Melamine coating or 0,8 mm HPL finish
- Panel edges in 2 mm ABS
- 30 mm thickness

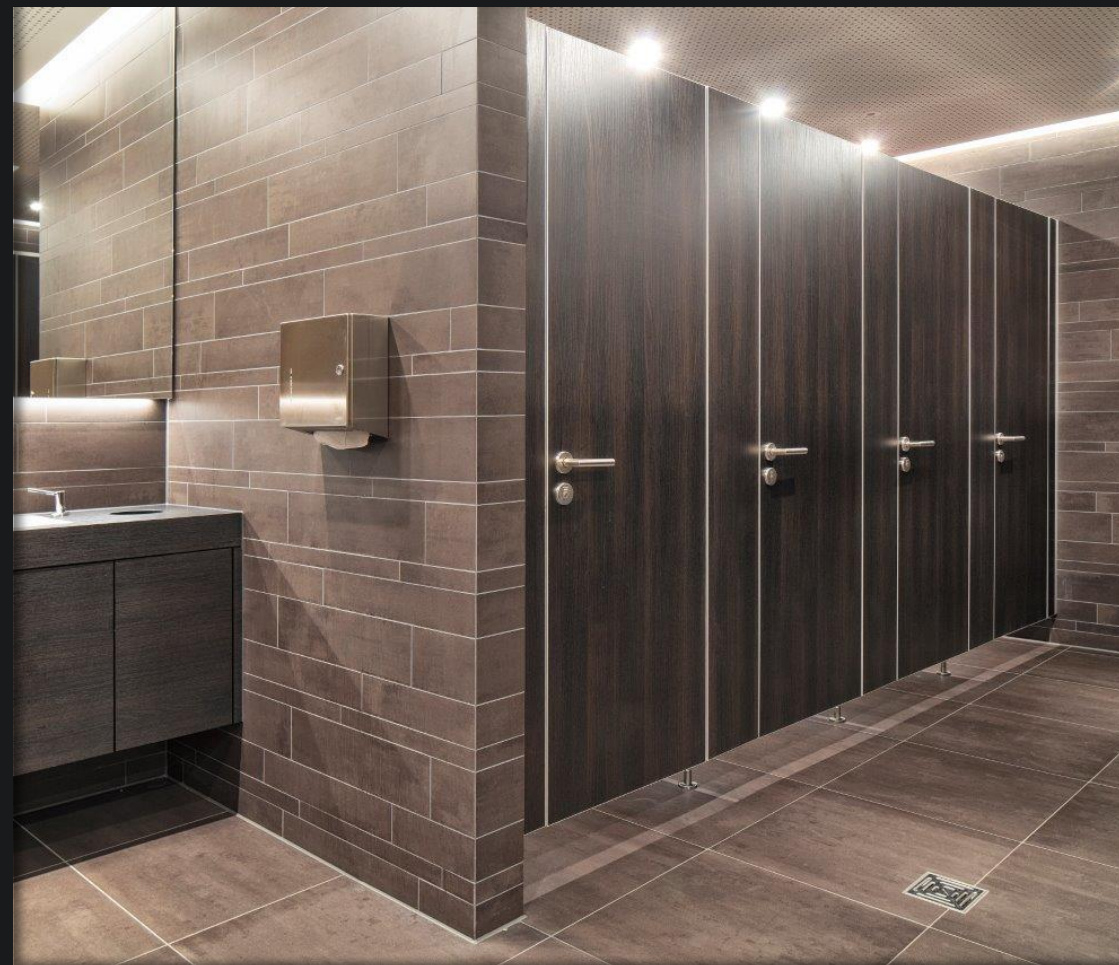

Product values

- Flush front
- No sightlines

Configurations and max. height

- With floor clearance (min. 50 mm) up to 2300 mm without transom
- Floor-to-ceiling up to 2800 mm without transom

Recommended applications

PRIMO F

Material

- Foam core
- 3 mm SGL finish
- Panel edges in PVC
- 30 mm thickness

Product values

- Flush front
- Rebated doors
- Differentiation inside/outside (Bi-Color)
- Water resistant

Configurations and max. height

- With floor clearance (min. 50 mm) up to 2300 mm without transom
- Floor-to-ceiling up to 3150 mm with transom

Recommended applications

PRIMO F Flameguard

Material

- Foam core
- 3 mm SGL finish
- Panel edges in PVC
- 30 mm thickness

Product values

- Ideal for airports
- Fire classification tested and certified
- DIN EN 13 501-1
- DIN EN ISO 11 925-2
- DIN EN 13 823

Configurations and max. height

- With floor clearance (min. 50 mm) up to 2300 mm without transom
- Floor-to-ceiling up to 3150 mm with transom

PRIMO F KEMlight

Product values

- Door wide LED indicator above doors
- Users can distinguish between a free and occupied cubicle at a glance
- Feel-safe indicator shows the user the locking status from inside

Recommended applications

PRIMO Kn

Material

- Foam core
- 3 mm SGL finish
- Panel edges in aluminum
- 42 mm thickness

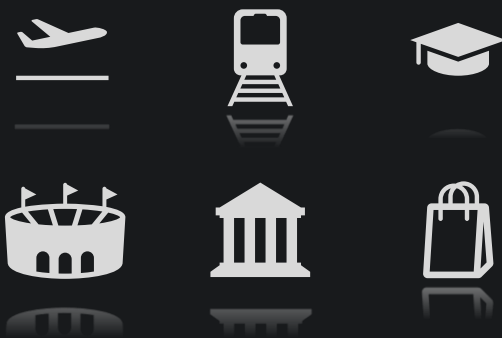

Product values

- Flush front
- Suitable for heavy use
- Differentiation inside/outside (Bi-Color)
- Water resistant

Configurations and max. height

- With floor clearance (min. 50 mm) up to 2800 mm without transom
- Floor-to-ceiling up to 3150 mm without transom

Recommended applications

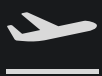

PRIMO Kn Touchless

Product values

- Easy operation without direct contact with any handle
- LED occupancy indicator
- Manual locking/unlocking from inside possible
- Concealed hinges
- Actuator operated door

Recommended applications

classiccell

Material

- Foam core
- Metal finish (PPC steel, aluminum, st. steel)
- Full panel folded edges
- 42 mm thickness

Product values

- Flush front
- Unique design
- Water resistant

Configurations and max. height

- With floor clearance (min. 50 mm) up to 2800 mm without transom
- Floor-to-ceiling up to 2800 mm without transom

Recommended applications

Classiccell Heavy Duty

Product values

- SGL reinforced core
- Impact and dent resistant
- Vandal proof
- No extra reinforcement inlays needed

Recommended applications

Wide product range

- *Sanitary Partitions*
- *Sanitary accessories / Online-shop*
- *Lockers*
- *Cleanroom furnitures*
- *Baby changing units*
- *Benches and hairdryer stations*
