

Plane Solid with planter

Article number: 20001382

Series: Plane Solid

Product description

An outdoor bench is not always enough to effectively design public space. The addition of **greenery** often **adds atmosphere** to public spaces and contributes to **biodiversity**. The Plane Solid series, therefore, offers a planter on which one can also sit comfortably. This sturdy planter has a **natural look**, thanks to the use of 100% FSC hardwood. Together with the green, it forms a beautiful whole in the public space. The Plane Solid planter is the ideal combination of sitting and green.

Features

- Floating effect
- Robust appearance
- Integrated planter

Floating in public space

The Plane Solid series is also known as the floating bench series. The Solid benches are designed to look like they are floating a few inches above the ground. This, and the rounded corners give these sturdy and robust benches a friendly look. Through craftsmanship and years of woodworking experience, the bench appears to be made from a single piece of wood.

Materials

The bench is produced from steel and wood. The steel is hot-dip galvanized and two-layer powder coated in a RAL color of choice. This ensures that the bench, like our other products, will last a long time in public spaces. The seat is made of untreated hardwood. This wood is 100% sourced from FSC-certified forests. This means that the wood has been harvested

sustainably and responsibly.

Extra information
